RE: Opposition to LRB-0917, the "Teacher Protection Act"

The above-signed organizations that represent and support teachers, students, families, and public schools, are writing to express our opposition regarding LRB-0917, known as the "Teacher Protection Act."

All teachers and students deserve a safe environment in which to teach and learn. Unfortunately, the measure does not address improving safety through providing needed supports, services, staffing

levels, and professional development. Instead, the proposal would occasion the following harmful effects:

- Infringing on student privacy rights
- Encouraging ineffective, punitive responses to disability-related behavior
- Creating detrimental linkages between out-of-school incidents and school records
- Expanding the "school to prison pipeline"
- Undermining the administrative chain of command, potentially placing teachers, administrators, and school boards at odds over established policy
- Compromising due process rights regarding suspension for students with disabilities
- Disproportionately affecting students with disabilities and mental health challenges
- Disproportionately affecting students of color
- Imposing unnecessary reporting categories for suspension and expulsion

We request that members of the Wisconsin Legislature join us in opposing LRB-0917.
